

ATTENTION SALTWATER ANGLERS!
The Virginia Marine Resources Commission
announces the

Virginia Saltwater Fisherman's Journal

The Fisherman's Journal is a new tool that is intended to benefit the individual angler, the fishing community, and fishery managers. It allows the individual angler to keep a record of their fishing experience that can be used to identify successful locations and conditions in the future. It allows the fishing community to share and learn about other anglers' experiences. Finally, it will benefit fishery managers by allowing them to assess fish populations by analyzing data provided by you, the recreational fisherman.
